**Subject: J.T. Baker – REACH – Preregistration of Substances**

Dear valued Customer,

As you know, we are quickly approaching the REACH preregistration deadline. REACH requires any substance produced or imported in the EU over 1 metric ton (average for past 3 years) to be pre-registered.

In order for Mallinckrodt Baker to ensure compliance to this new requirement, we have taken a position that we will pre-register any substance with over 0.7 metric tons either produced in the EU or imported into the EU. This process will be completed by the November 30<sup>th</sup> deadline.

We hereby inform you that all the products we supply you with will stay available after November 30<sup>th</sup>.

If you have any questions or concerns regarding this information or if you require more detailed information on REACH please email our dedicated team at [REACH-jtbaker@covidien.com](mailto:REACH-jtbaker@covidien.com)

Regards,

T. de Groot,  
Manager Environment, Health & Safety,  
REACH Project Leader
